CRYPTO WORLD PRIVATE EQUITY FUND

Cryptocurrency fund space. Recognizing the growth and potential of digital assets, BIT TRADE MEDIA took the leap and shifted focus towards blockchain and cryptocurrency. BIT TRADE MEDIA has several high-profile intuitional backers in the tradional space including Bmark, Lionesses Investment Firm, and Radiates Capital. BIT TRADE MART is a renowned fund management firm with significant amount dedicated for crypto currency under management across multiple funds, that invest in various asset classes from seed to growth stages. With over more than 20 undisclosed-investments into crypto currency and block chain projects, BIT TRADE MEDIA has entered into the crypto currency space, given that it marks one of the first time that an established investment institution has made an explicit move into investing specifically in digital assets. As a Private Equity Fund, BIT TRADE MEDIA is also market managers for block chain startups and liquidity provider frothier market expansion. This is similar with venture capital funds — the only difference being the entry stage of investment. Crypto currency private equity funds will invest in a crypto currency or block chain project that is much more mature, compared to when a venture capital fund might do so. This is to ensure that the technology or applications promised by the project has been proven to work and is ready to scale, thereby reducing the risk exposure of the fund. Although this is the major category of crypto currency funds that BIT TRADE MEDIA deals with, it employs a hybrid approach by allocating funds to publicly traded crypto currencies as well as being a seed investors in other cryptocurrency projects

Crypto World Trading and Marketing

Forex trading is the act of buying or selling currencies. Banks, central banks, corporations, institutional investors and individual traders exchange foreign currency for a variety of reasons, including balancing the markets, facilitating international trade and tourism, or making a profit. Currency is traded in pairs, in both spot and futures markets. The value of a currency pair is driven by economic, or national elections. Foreign exchange (also known as forex or FX) refers to the global, over-the-counter market (OTC) where traders, investors, intuitions and banks- exchange, speculate on, buy/sell the world currencies. Trading is conducted over the interbank market, an online channel through which currencies are traded 24 hours a day, five days a week. Forex is one of the largest trading markets, with a global daily turnover estimated to exceed US\$5 trillion.
